Elderberry ResQ

Viral and bacterial infections rank among the most common health occurrences worldwide. As much as chicken soup provides natural comfort when cold or flu hits, some of us are seeking stronger relief.

Thankfully, there are many robust, well-researched botanicals known for their symptomatic relief of bothersome symptoms. Elderberry is one of the world's most renowned and effective herbs in reducing their severity and duration. Also known to promote sweating, elderberry is often taken to reduce fevers from cold and flu.

Elderberry ResQ is available in capsules as well as in liquid form.

Elderberry ResQ capsules deliver a powerful trio, combining elderberry, bilberry, and black currant. Their synergistic action helps managing cold and flu symptoms which include stubborn coughs, sore throats, runny noses, and mucus accumulations in the upper respiratory tract.

The common denominator for the therapeutic action of the berries in Elderberry ResQ is their high concentration of anthocyanidins and flavonoids.

Our Elderberry ResQ Fruit Tincture is a potent liquid cold-and-flu fighter, loaded with flavonoids which are helping to protect healthy cells from free radicals, helping you to find relief and reduce transmission.

Elderberry ResQ

- **PROVEN TO RELIEVE COUGHS, SORE THROATS, RUNNY NOSES, AND MUCUS ACCUMULATIONS WITHIN THE UPPER RESPIRATORY TRACT**
- **HELPS TO REDUCE FEVER AND VIRUS TRANSMISSION**
