Memory Care

Do you say “I forgot!” too often? Do you have trouble remembering names, numbers, or passwords? Are you routinely misplacing your keys, or missing appointments? For many, these are common memory lapses—but do they need to be?

Memory Care can help support cognitive function, including attention, perception, language, decision making, problem solving, and—especially important—memory!

The key to excelling in all aspects of your life is to maintain your cognitive health at its highest level—be it work, academics, sports, hobbies, or other activities. The ability to think clearly, react quickly, learn effectively, and remember it for next time is essential.

Memory Care contains 300 mg of *Bacopa monnieri* extract, a potent natural ingredient shown to support cognitive function. This extract is standardized at 25:1. Each potent capsule contains an incredible 45% pure bacosides, proven to help regulate neurotransmitter levels in the brain. Put simply, bacosides ensure smooth transitions between brain cells, allowing thoughts and memories to flow seamlessly without lapses.

Memory Care can help protect your memory and support cognitive function, so you can stay focused, be more productive, and stay sharp!

Make Life Better · newrootsherbal.com
