Vitamin K2+D3

- **BENEFICIAL FOR IMMUNE-SYSTEM PERFORMANCE**
- **VITAMIN K2 INCREASES THE ABSORPTION AND EFFICIENCY OF VITAMIN D3**
- **MAY REDUCE THE RISK OF OSTEOPOROSIS**

Everyone has heard of the importance of vitamin D3 and its role in improving immunity. It is also crucial for the assimilation of calcium to build stronger bones and teeth.

A lesser-known ally in this function is vitamin K2, which can be difficult to obtain in sufficient amounts from diet alone, especially for anyone trying to reduce their meat and dairy consumption. New Roots Herbal's Vitamin K2+D3 provides 120 mcg of vitamin K2 plus the recommended 1,000 UI daily intake of D3.

Make Life Better · newrootsherbal.com

Each drop contains:

Vitamin K2 (all *trans*-menaquinone-7) 30 mcg
Vitamin D3 (cholecalciferol) (250 IU) 6.25 mcg
